INDUSTRY LEADERS IN PLAQUES

Castech has manufactured bronze plaques for over 20 years and has gained a reputation for high quality. Castech combines modern technology of computer generated typesetting, graphic designs, polymer pattern production, with traditional sand casting and finishing techniques.

QUALITY & CUSTOM SPECIALISTS

All plaques are hand fettled and finished with traditional dark bronze patina background. The plaque then has a baked clear coat to provide long lasting finish. Alternatively plaques can have a painted background to a specific colour or can be chrome plated.

Plaques can be made to any shape or size. Client designs and logos can be used. Free inscription layout service is offered. Custom design work is also available if needed.
